BPA free statement

Statement on Bisphenol A (BPA) Free Water Filter Bottles and All our products

Chanson Water Co., Ltd. confirms that all our products do not contain BPA (Bisphenol A C15 H16 O2.) There have been many media reports regarding the chemical A (BPA.) The subject of BPA has become a very emotional one and rightly so as it could affect our health. For Chanson Water it is only natural that we have concerned ourselves with this issue.

Chanson Water Co., Ltd

General Manager

Mr. Barry Liao
