

Check out these other great Chanson Water Products

Chanson C3 Pre-Filter:

The Chanson Water C3 pre-filter is the ultimate in water filtration technology. There is not an ionizer filter on the market that can compete with our triple- canister filtered water. Each C3 canister is devoted to removing harmful chemicals and bacteria from your drinking water.

Stage 1: Carbon Block- 5 Micron-Sediment/ Chlorine

Stage 2: Activated Alumina- Fluoride/Lead/Arsenic

Stage 3: KDF+55/ GAC- Metals/ Chloramine/some bacteria

Please check our web site for a list of what each filter removes

Price: \$198.91

(Can be added to any counter-top or under-counter ionizer)

Chanson Ultra-filter:

The Chanson Ultra-filter is a fully customizable filter with a .01 micron membrane. It can be combined with an ionizer or used on its own. Until now .01 micron filters were unusable because they would clog easily and users would experience reduced water flow in as little as 3-4 weeks. Not the Chanson Ultra-filter, its self-flushing system prevents clogging and extends filter life. The Chanson Ultra-filter can also claim anti-bacterial properties because its .01 micron filter removes even the smallest bacteria from the source water.

Price: \$285.00

Chanson Nano-filter:

The Chanson Water Nano-filter (NF670M) is the first of its kind. A RO/pre-filter hybrid, the Chanson NF670M has the ability to remove the majority of the contaminants found in our water while still allowing the vital minerals to remain. This is especially important if you are using the NF670M with an ionizer. In the past customers who needed the filtration properties of an RO unit, but wanted the health benefits of an ionizer, had to re-mineralize the water after it has passed through the RO unit. With the NF670M this is no longer a problem, you can hook-up your ionizer straight to the NF670M with no additional steps. Furthermore, the NF670M has a better water flow than RO units and does not require a holding tank underneath the sink.

Price: \$695.00

The Chanson Ionizer Armor:

The number one enemy of any water ionizer is scale buildup inside the plate cell. More specifically, scale buildup on the membranes that are between the plates. The Chanson Ionizer Armor eliminates this build-up quickly and easily. With the Ionizer Armor we saw a reduction of scale and build-up up to 60% and not just on the ionizer's plates, but throughout the machine. Let our Ionizer Armor extend the life and efficiency of your water ionizer. Furthermore, this innovative product can be used with any brand of ionizer.

Price: \$82.00

The Chanson Water Alka-Traveler Stick:

Fresh ionized water straight from an ionizer machine at your sink is the healthiest drinking water; however when you are away from home or traveling, the Alka-Traveler Stick is your second best choice.

The Alka-Traveler Stick (ATS) is designed for those who travel a lot, or have a need to take their ionized water on day or weekend trips. After you make your ionized water at home, the electrical charge starts to decline as the hours go by. You can simply drop the ATS in your ionized water to recharge it to full potency. It only takes a few minutes. This product is a must purchase for those on the go!

Price: \$89.00

The Chanson Spa Shower Filter:

The Chanson Spa shower filter is specially formulated to effectively remove 95% or more of harmful chlorine from shower water. And it is the only Shower Filter to include an anions swirling type deflector.

An anion is a negatively charged ion, or an atom that has become negatively charged by gaining one or more extra electrons. The specially-cured crystals in the Chanson Spa shower filter act upon the water to create a softer, more energized shower "feel" and improve both lathering and sudsing.

Unlike other de-chlorinating shower filters, Chanson shower filter is specifically engineered for efficiency and performance. Its unique filter design produces water the way nature intended, the best shower experience available for you and your family, by turning your shower into a fabulous spa experience.
